

The logo for ERS consists of the letters 'E', 'R', and 'S' in a bold, sans-serif font. The 'E' is red, the 'R' is teal, and the 'S' is dark blue. Below the letters is a horizontal line composed of three segments: a teal segment under the 'E', a dark blue segment under the 'R', and a red segment under the 'S'.

ERS: ENGINEERING, RECRUITMENT & SERVICES

Working with you
to get the right results

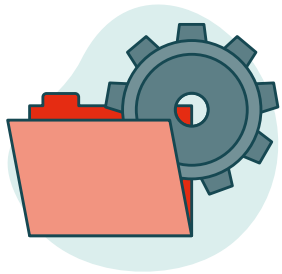

We're trusted specialists who are passionate about providing the right engineering, people and services, at the right time, to help you succeed.

With an unrivalled knowledge across the Tees Valley we have a reputation for delivering first time, every time.

WHAT WE DO

At ERS, we provide specialist, bespoke services in:

Engineering and construction project management

Engineering, Recruitment & Services (ERS) has a wealth of experience in engineering and construction management, and recruitment services. Since launching in 2006, we have established ourselves as the go-to specialist agency in the Tees Valley.

We're proud of our deep roots in the North East, but have also developed an extensive network of national, international and offshore contacts across a wide range of fields that enable us to deliver engineering and recruitment services to our clients, quickly and reliably.

Engineering and construction recruitment

We pride ourselves in delivering high-quality results that make it easy for our clients to keep doing what they do best.

Organisations come back to us time and time again because they know that our transparent, responsive approach puts their business needs first every time.

Whether businesses want expertise and support with engineering projects, engineering and construction workers, or additional support around payroll, suppliers, and local knowledge, we can help.

Payroll and supplier services

OUR VISION AND VALUES

QUALITY, PASSION & RESPONSIVENESS...

Our vision is to see a thriving economy and business sector in the Tees Valley, wider North East region and the UK, that provides long- and short-term quality jobs, training and opportunities for the local workforce and suppliers.

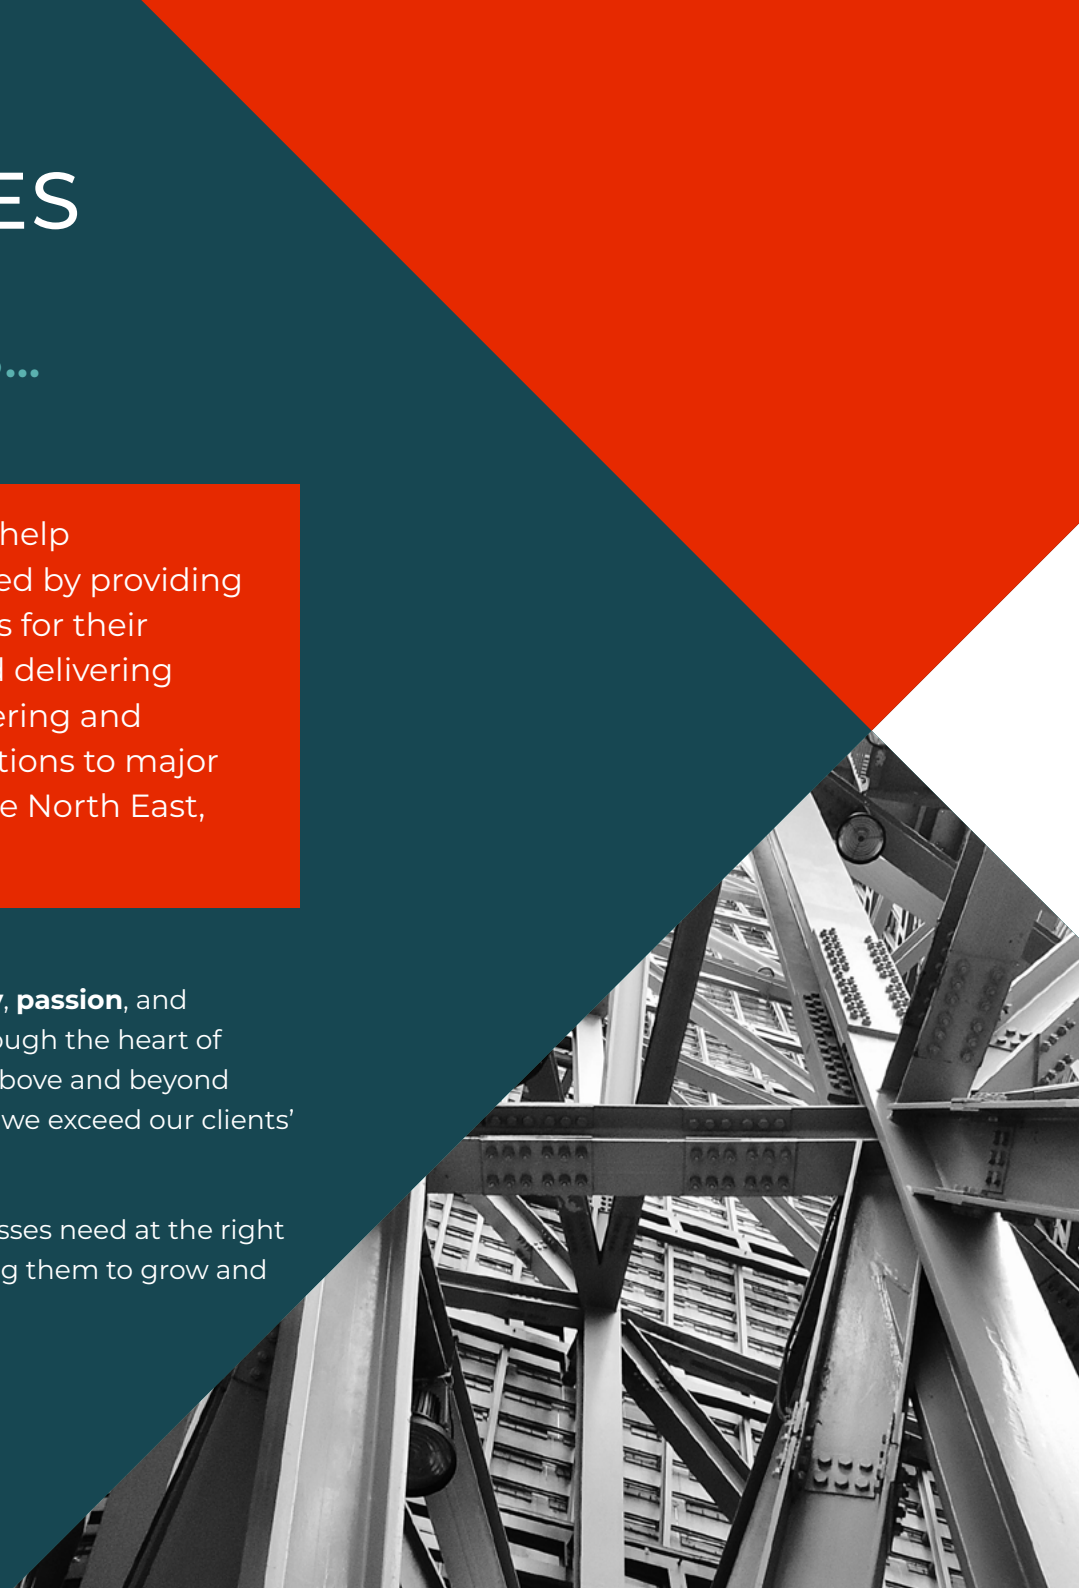

Our mission is to help businesses succeed by providing quality candidates for their organisations and delivering first class engineering and construction solutions to major projects across the North East, UK and offshore.

At ERS, we're passionate about engineering and recruitment, and helping our clients to succeed. We have a dedicated, committed team with a wealth of local knowledge, who genuinely care and want to deliver the best service possible for clients.

We build a close rapport with clients to ensure we understand their needs and their culture of working. We provide a bespoke approach, along with quality and value for money, ensuring our clients' objectives are met.

Our key values of **quality, passion,** and **responsiveness** run through the heart of what we do and we go above and beyond every time to make sure we exceed our clients' expectations.

We provide what businesses need at the right time, every time – helping them to grow and reach their potential.

ENGINEERING AND CONSTRUCTION SERVICES

Our team of experienced, qualified and seasoned engineers and construction professionals have a track record of delivering quality projects across the North East and Humber regions, working with some of the biggest national and multi-national companies to complete projects on time, on budget and to the highest quality.

We provide engineering and construction expertise for chemical, industrial and mechanical engineering projects across the UK – from full project management to delivering small, one-off jobs, and everything in between.

We have experience of delivering a wide range of pipeline projects up to the value of £500,000. From design, planning, materials & equipment procurement and manpower, ERS works alongside a wide range of businesses, such as British Steel, Hall Construction, Lafarge Cement, Navigator Terminals, Conoco Phillips etc. to deliver successful projects.

Case Study – Cooling Water Sprays to Plenum Chambers Value Circa £100,000

To design and install ½” nb Air & 1” nb water pipelines mixed into an air mist system to cool gas entering through a 12 Plenum chamber complex enabling the client to operate the process in higher ambient temperatures.

The system was fully tested and commissioned to the client's satisfaction and completed over a 3-month period.

Specifications: Welding & Piping, Code ASME B31.3,
Welding Process TIG

Case Study – Coke Oven Battery 4 Value Circa £500,000

Brief

Fabricate & Install 3” nb Cooling Water, 1” nb Compressed Air, 6” nb Sour Liquor & 4” NB Nitrogen lines onto a 50m Long Skid. Re-design, fabricate and install 4” steam pipework. This involved extensive fabrication, testing and commissioning of approx. 1000m of pipeline.

The skid was then lifted into position to enable ERS to connect all the lines to an existing supply framework.

The project was undertaken over a 6-month period.

Specifications:

Pipe Steel Grade P235GH

Piping: BS EN ISO 13480

Welding: BS EN ISO 15614-1

Welding Process: TIG / MMA

RECRUITMENT

We match quality engineering talent to the right roles, ensuring our clients maintain business continuity and have the right teams to help their businesses thrive.

We take care of all aspects of the recruitment process based on their needs to make things as easy as possible for everyone involved, including;

- Candidate search
- Initial interview to assess suitability
- Supply and agree suitable candidates
- Induction
- Payroll and ongoing support

We have an extensive pool of quality engineering talent, and are attracting new candidates every day. Many of our candidates have worked with us for many years and understand and deliver the high standards we set.

We only match candidates to businesses once we are certain of their calibre and suitability, ensuring they have the appropriate skills, qualifications and attributes for the role.

Our quick response time and excellent attention to detail means that we can ensure next-day start dates in roles from entry level to senior management.

This is why so many of our clients come back to us again and again. We have developed a reputation for quality, responsiveness and passion – putting the needs of our clients first every time.

“ERS Services have supplied all disciplines of M&E staff to site. I find them to be very knowledgeable of our business and our requirements. They are always honest, professional, and reliable and I have been very happy with the service they provide.”

Nick Gibson, Construction Supervisor,
Navigator Terminals

“As a long-term partner, ERS have always delivered an excellent service – one that continually improves year on year. But you have far exceeded our expectations in recent times, providing a level of service that is unmatched in short term recruitment and supporting us through unprecedented levels of labour requirements post Covid. The network, knowledge and experience that ERS provide is a real differentiator in the industrial services sector.”

Altrad

SUPPORT SERVICES

Engineering is our passion, and we monitor the landscape closely to make sure we're up to date on the latest industry developments and standards. We also have unrivalled knowledge in the Tees Valley and advise clients on the landscape, economy, investment, growth sectors and reputable suppliers.

We provide a range of added value services that can help your business, such as:

- Tax assist and accountancy
- Payroll services
- Networking and local knowledge
- Extensive candidates and supplier databases
- Local knowledge
